## COMMENTS:

Here is a table of the preliminary water results for metals and volatile organic chemicals. I will forward you the raw data as soon as I receive those pages.

I have not called the residents yet. I can call them next week after ~~we have~~ all of us have a chance to review this information. I ~~request~~ request that no hard copies be released until the data has had the QA/QC validation review. Brodie Fanguar called me today asking if we had received data.

DATE and TIME:

6-15-01

NO. OF PAGES

CS soil/dust data should be in by Wednesday, I hope.
